### LANGUAGES

English : B2 - Aptis-  
British council

French

### DEVELOPMENT SKILLS

HTML / CSS / JAVASCRIPT

TYPESCRIPT

ANGULAR

JAVA

NODE JS / EXPRESS JS

SQL / MYSQL

### TOOLS

GIT / GITHUB

POSTMAN

BOOTSTRAP

TESTING / JEST

### EXTRA SKILLS

Data structures and algorithms

Problem Solving

Critical Thinking

Communication

Modeling / Design UML

Agile / scrum

### VOLUNTEERING

Enactus Central University

- Member in the sponsoring department.

Rotaract Central University

- Member in the finance commission.

### EDUCATION

#### 2020 - 2023 Central University

License degree, in software engineering, and information systems.

#### 2020 High School Menzah 6

Baccalaureate, computer science

### WORK EXPERIENCES

#### 2022 Internship : Web Developer at "STAR ASSURANCES"

Creation of a web app for filtering users and distributing a message to their phone numbers ( Angular, Node js / Express js, Mysql ).

#### 2021 Co-founder and CNO "Takwira"

Creation of a mobile app that helps players join and organize football games.

### PROJECTS

#### Dino-jumps-higher

**Web development project (Html, css, Js)**, creation of Google game when the internet goes down.

#### Find-your-path

**Java project**, creation of a maze to solve it and find the optimal path with the shortest distance.

#### Cobra-is-hungry

**Python project**, snake game, the screen on the desktop with score and snake body growing when eating the food.

### CERTIFICATES

#### Front-End JavaScript Frameworks: Angular

**The Hong Kong University of Science and Technology** - components, Data binding Services, Routing, Forms, and Reactive Programming, HTTP Communication.

#### Using Databases with Python

**University of Michigan** - object-oriented programming and CRUD operations to manage databases.

#### Bootcamp in golang coding language

**01 Edu System** - 4 weeks of intensive and collaborative coding immersion.
